

## HOUSEHOLD HAZARDOUS WASTE PROGRAM

TUCSON/PIMA COUNTY

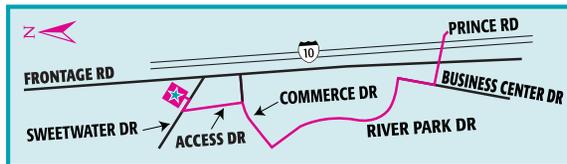

### Protect Our Environment From Household Hazardous Waste!

Common household and automotive products become a hazard to the environment when disposed of improperly. Leftover quantities of these products should never be poured down the drain, put in the trash, or stored for excessive periods of time. Bring them to the household hazardous waste collection sites for safe disposal at *no charge*.

## 5 Actions you can take

1. Buy only what you need.
2. Read and follow labels.
3. Store properly and in labeled containers.
4. Take leftover quantities to the Program.
5. Use safer alternative products when possible.

Please deliver wastes *only* during hours of operation. All wastes should be properly identified and labeled. Containers should not leak.
